About Me

I am a dedicated and enthusiastic individual with a strong desire to learn and grow. I possess good communication skills, adaptability, and a positive attitude. I am eager to gain hands-on experience and contribute to organizational goals. I aim to continuously improve and add value to any team I join.

Experience

Technical projects

1. Machine learning project - Customer purchase

Developed a predictive model using python, implemented using model training, data preprocessing and evaluation.

2. Mlops project - Stock price prediction

Developed a ml model and deployed using CI/CD pipelines with tools like github and docker. Automated model training and deployment using jenkins.

3. Chatbot project - Medical assistant chat bot

Built an AI chatbot using python and flask, implemented using sentence transformers, designed a user interface and handled user input /output.
