PROJECT

Loan Approval Prediction
The Loan Approval Prediction project uses machine learning to assess whether a loan application should be approved based on applicant data like income, assest,cibil score and employment status.It involves data preprocessing, model training, and evaluation using classification algorithm like Logistic Regression. The system helps financial institutions automate and improve decision-making accuracy.
Tools Used: Colab,VS code,Docker,github,git and jenkins.
Library Used: Streamlit

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL
Web Technologies: HTML, CSS, JavaScript
Tools & IDEs: Eclipse, IntelliJ IDEA, VS Code, Python IDLE, Google Colab
Databases: MySQL, Oracle
Version & Data Control: Git, GitHub
Containerization Platform: Docker
API: Flask

EDUCATION

Btech Aritificial Intelligence and Data Science
Karpagam College of Engineering,Coimbatore ,Sep 2023 - 2027
CGPA : 8.1/10 currently

Higher Secondary (12th Grade)
Royal International School, CBSE — *2022 – 2023*
Percentage: 76%

Secondary (10th Grade)
Royal International School, CBSE — *2020– 2021*
Percentage: 87%

SKILLS

People Management	Data analysis	Communication
Organization	Problem-solving	Management
